

# about **POWERBRACE** Corporation

Customers are often surprised to learn just how many door securement alternatives we have to offer. You can count on Powerbrace to solve almost any door closure challenge.

For over three decades, Powerbrace Corporation has been the premier manufacturer of heavy-duty door securement products for the truck-trailer, intermodal, specialty and truck body market segments.

Products include custom factory-fabricated lockrods, lockrod assembly kit options, steel, aluminum and polymer hinges, lockrod repair parts, and an expansive offering of aluminum products including lockrods, compression latches and hinges.

Powerbrace Corporation manufactures and markets its products direct to Trailer Manufacturers (OEMs) and Authorized Aftermarket Distributors.

Powerbrace products and quality assurance standards are certified to the rigorous criteria set by the Association of American Railroads (AAR) M-1003 Specification (based on ISO Standards).

Powerbrace Corporation is a wholly owned subsidiary of Miner Enterprises, Inc. with world headquarters in Geneva, Illinois. Miner has been a supplier to the railroad industry since 1894.

In addition to Powerbrace Corporation, other Miner Enterprises business units are Miner Elastomer Products Corporation of Geneva, Illinois and Autoquip Corporation of Guthrie, Oklahoma.
