

# Anti-Theft Devices

## Secura-Cam

The Secura-Cam is a special cargo cam and keeper set that provides holes that when aligned, allow the attachment of barrier or integrity type seals. Once the seal is attached, the door is impossible to open without breaking the seal.

Secura-Cam (SC) may be substituted for DL or CT cams at right hand, bottom position.

## Interior Anti-Theft Plate

Stiffer and lighter than conventional non-ribbed plates.

Hot-Dip Galvanized finish
